

**BirdLife International**  
**Slender-billed Curlew *Numenius tenuirostris* Bibliography**

**Update No. 3 December 2002**

**Introduction**

The aim of this document is to build up a bibliography of references on the Slender-billed Curlew and for the bibliography to be distributed amongst the members of the Slender-billed Curlew Working Group, established under the Bonn Convention.

The list present list is the updated version of the one distributed in January 2000. As the previous one, it does not represent a complete record of all references concerning the Slender-billed Curlew. The document will be continuously updated to take account of new material. BirdLife welcomes comments and references for inclusion in the bibliography. Please send information of references that should be included in this bibliography to:

Tim Cleeves
