

THE RSPB MACCLESFIELD LOCAL GROUP GARDEN BIRD & WILDLIFE SURVEY 2020-2021

1. Please tick each bird seen in your garden or record O/H for birds seen flying overhead in the appropriate week's column. All records are important, so even if you have only a few species in your garden, please complete the survey.
2. Please add to the sheet any other species seen in your garden.
3. Any birds seen in neighbouring fields or gardens should be included under interesting sightings.
4. For any week you are unable to record write N/C at the head of the column.
5. Please give full details of any interesting sightings in your garden, or within the local area, at the bottom of this form.
6. Record the first dates you see or hear locally any of the summer migrants listed below
7. Please return the completed form if we hold a May Indoor Meeting or by the 31st May 2021
To: **Ian Taylor, 39, Leamington Road, Congleton, Cheshire, CW12 4PE**

A summary of the records submitted will be included in the August 2021 edition of the RSPB, Macclesfield Local Group newsletter, "The Heron". If you are not a member of the Group, please send a **C5 stamped self-addressed envelope** for a copy of the summary and next year's form, or print a copy from our website <http://macclesfieldrspb.org.uk>
