

THE RSPB MACCLESFIELD LOCAL GROUP

GARDEN BIRD SURVEY

2014-2015

1. Please tick each bird seen in your garden or record O/H for birds seen flying overhead in the appropriate week's column. All records are important, so even if you have only a few species in your garden, please complete the survey.
2. Add to the list any other species seen in your garden.
3. Any birds seen in neighbouring fields or gardens should be included under interesting sightings.
4. For any week you are unable to record write N/C at the head of the column.
5. Give full details of any interesting sightings in your garden, or within the local area, at the bottom of this form.
6. Record the first dates you see or hear locally any of the summer migrants listed below
7. Please return the completed form at the Group meeting in May, or by the 31st May 2015
To: Ian Taylor, 39, Leamington Road, Congleton, Cheshire, CW12 4PE

A summary of the records submitted will be included in the August 2015 edition of the RSPB, Macclesfield Local Group newsletter, "The Heron". If you are not a member of the Group, please send a C5 stamped self-addressed envelope for a copy of the summary and next year's form, or print a copy from our website <http://macclesfieldrspb.org.uk>
