Peter Holden MBE has authored or co-authored more than a dozen books which together have sold more than a million copies including the *RSPB Handbook of Garden Wildlife*. In the past Peter joined Bill Oddie to present the BBC TV series, *Bird in the Nest* and was a consultant on BBC's *Blue Peter*

Peter's presentation will use his own photos and include natural sounds to illustrate the diversity of garden life and help us discover what we can do to help it survive.

Peter is something of a legend within RSPB circles and his presentations are always hugely entertaining and informative.

This is Peter's First Visit to the Group

GIVING NATURE A HOME - What does it really mean? In this talk he will look at some of the fascinating wildlife that benefits from our activities, both in gardens and further afield.

**Hosted by the RSPB
Medway Local Group**
